

New World Cigars 2023

Tor Imports Ltd

Welcome

Welcome to the Tor Imports 2023 Edition of the New World Cigars publication, showcasing our extensive range of the “Best of the Best” cigars from around the globe.

2022 saw us celebrate our 30th Anniversary. We are very grateful to all of the retailers and the cigar community who joined us at almost a hundred Trienta Aniversario Cigar Events around the UK helping us celebrate our milestone. This helped make 2022 a record year for Hand Made New World Cigars imported into the UK.

Like a good wine, Tor have matured and grown into the UK's leading Importer of New World Cigars, originating from Nicaragua, Dominican Republic, Honduras and Mexico.

Over the past few years, consistent supply has been an issue across the world, mainly caused by Covid-19 working restrictions, the Cigar Boom and shortage of key materials and resources to produce cigars in a timely manner, without affecting quality.

Tor's strategic objective of partnering with manufacturers who are Vertically Integrated and in control of their own farming, production and have their own box-making facilities, has given us a clear supply advantage and enabled us to build stocks which in turn, has enabled us to keep any supply issues to a minimum.

It is our mission to select and introduce the Best of the Best rated cigar ranges from across the World and offer first class service and the best quality of handmade cigars available in the UK. To help us achieve this, we have invested heavily in bespoke storage facilities which includes one of the largest purpose-built storage humidors in the UK that controls temperature and humidity and ensures that every cigar leaves our bond in perfect condition.

We have also implemented a tailored, HMRC-approved operating system that allows us to control our inventory and maximise our product availability. We have a thorough and careful supplier selection process to make sure that the majority of our family-owned cigar partners are responsible for their own tobacco farming. Understanding their vertical supply chain helps us guarantee consistently high-quality cigars for our customers.

The majority of our cigar maker partners give something back to their local communities through academic scholarships for their workers and poor families in their communities. It is our preference to work with partners who offer health programmes and subsidised childcare for their staff, as well as support programmes for children with disabilities.

Almost all our New World Cigar partners are family owned and operated, and have fair pay and gender equality policies in place. The New World Cigar community takes their environmental responsibilities seriously, including the planting of thousands of precious species of trees, investing in sustainable growing practises, including drip irrigation and organic production, and sponsoring programmes that build emergency housing for the poorest families in their regions.

Through our partners, we proudly represent 11 out of the 19 No1 rated cigars since *Cigar Aficionado* inaugurated the award in 2004. All of these award-winning companies are family-owned businesses and in recent years, Tor have proudly been rewarded with various prestigious awards from the UK Cigar industry for our range, our service and our support.

This recognition motivates us to continuously innovate and identify fresh ideas that help us

improve and bring new experiences and high-quality products to our customers and their consumers.

Looking ahead to 2023, our own brand Charatan will achieve its 160th Anniversary since Fredrick Charatan opened a tobacco shop in Mansell Street, London in 1863, making it one of the oldest New World Cigars in the world.

We purchased Charatan from Dunhill Tobacco of London in 2017 and during our ownership, the brand continues to go from strength to strength and today it remains as our No1 Best Selling range in our portfolio.

Watch this space for some very special commemorative products and events as the year progresses.

As well as big year ahead for Charatan, we have a series of new supplier and product launches lined up so that we keep the UK market fresh and exciting for the consumer.

Raised in Cuba and steeped in the rich tradition of the Fernandez cigar legacy, AJ Fernandez produces unparalleled premium cigars in Esteli, Nicaragua. Ensuring superior quality, the day-to-day operations are managed under the watchful eye of AJ and his father Ismael, with assistance from the rest of his extended family.

Through a fusion of inherited Cuban techniques and learned patience, Fernandez filler tobaccos are grown from prized seeds which are proprietary only to his family, making them one of the hottest properties in the cigar industry today with high quality and flavourful cigars.

Each brand is a unique smoking experience, a testament to AJ's talent as a tobacco farmer and blender. All components of each blend are selected based on strength, aroma and flavour in order to achieve a smooth and balanced smoking experience. AJ is truly a master of the fine art of balancing a cigar, always finding that perfect sweet spot of richness and flavour. This commitment and talent was recognised in 2022 when AJ received the *Cigar Journal* Lifetime Achievement Trophy & AJ Fernandez Cigars was named UK Cigar Producer of the Year at a prestigious award ceremony in London.

Such is the quality, AJ Fernandez achieved an industry first by being rewarded with No 1 Cigar of the Year in 2019 by both the *Cigar Aficionado* and *Cigar Journal*!

NEW WORLD

New World Dorado

The latest release in the AJ Fernandez New World Series could be considered an estate cigar of sorts. The New World Dorado consists primarily of tobacco from the Fernandez Dorado farm in Esteli; according to AJ Fernandez, the soil on the farm has a golden hue which is unusual as most of the earth in Esteli tends to be an ashen shade of dark grey. This golden appearance inspired the name as the word dorado means 'golden' in Spanish. The Dorado farm is only five years old and the New World Dorado brand uses tobacco from its first harvest.

Wrapper: Habano Sun Grown
Nicaragua

Binder: Nicaragua

Filler: Nicaragua

Strength: Medium

New World Dorado's all Nicaraguan blend is made up of a Sun Grown Habano wrapper and Criollo 98 binder both from the Dorado farm, and while there's some tobacco in the in the filler from two other tobacco fields – one in Condega and a different farm in Esteli – the rest of the filler blend incorporates leaf from the Dorado plantation. This medium box pressed cigar has notes of white pepper, cedar and cinnamon with a hearty, nutty finish.

ALEC BRADLEY

In 1996, Alan Rubin used part of his proceeds from the sale of the family hardware business to launch a new cigar company – Alec Bradley named after Rubin’s two sons, Alec and Bradley. After failed initial schemes at producing cigars targeted at golf courses and flavoured after-dinner cigars, Rubin managed to carve out a tenuous niche selling budget-priced cigars to tobacconists. Many new innovative cigars were launched over the next 11 years until Alec Bradley achieved its major breakthrough with the introduction of a new full-bodied line called “Tempus” which was rated 94/100 by *Cigar Aficionado* magazine.

Global success was achieved after the Alec Bradley Prensado Churchill was rated No. 1 Cigar of the Year 2011 by *Cigar Aficionado* magazine, followed by the company being awarded Best Brand and Best Cigar Honduras by *Cigar Journal* in 2012, 2013 and 2014. Alec Bradley cigars are now available in more than 40 countries worldwide.

AMERICAN

CLASSIC BLEND

American Classic Blend

"I was inspired by a conversation with my Dad; reminiscing about the simpler times of yesteryear. During our chat, he spoke about the types of cigars that he and his buddies once smoked. Back in my Dad's day, cigars were flavourful and hearty – yet, smooth on the palate. I went to the factory and blended a cigar to be smoked any time of day, every day. That cigar is American Classic."

— Alan Rubin

BLACK MARKET

2016 Cigar Journal Trophy Award – Best Brand Honduras
2014 Cigar Journal Trophy Award – Best Brand Honduras

“Every month, for over a year, I had been working on blends with a special tobacco from Panama. The unique flavour of Panamanian tobacco, that I so thoroughly enjoy, somehow had to be shared with the world. Creating 18 different Panamanian blends, I smoked the third one in line and knew this was Black Market! The mystery of Panamanian tobacco and the crate like box in which Black Market is displayed illustrates this cigar’s journey.”

BLACK MARKET

Black Market Esteli

"I've noticed that many cigar enthusiasts know their favourite cigars come from Nicaragua, but the exact location remains a mystery. Since the term 'black market' alludes to things unidentified or shadowy, I felt compelled to bring Esteli, the cigar capital of Nicaragua, out of the shadows. Black Market Esteli pays homage to the importance of the city and everything it offers to cigar making."

— Alan Rubin

Wrapper: Nicaragua

Binder: Honduras/Nicaragua

Filler: Nicaragua

Strength: Medium to Full

A complimentary blend to the Black Market; the Black Market Esteli focuses more on the Nicaraguan components of the cigar. The complex blend keeps a similar style to the original, but provides the consumer with a unique experience. Notes of caramel and cocoa are balanced by a ripe and concentrated dried fruit sweetness.

Prensado

"Prensado means a lot to me and the Alec Bradley story. Rolled at Raices Cubanas ('Cuban Roots') factory, the Prensado was first created to pay homage to the Cuban traditions of cigar making rolling the filler 'entubado,' triple capping the head and box pressing the finished cigar. Blended with proprietary estate grown corajo from the Trojes region of Honduras, Prensado would eventually be named Cigar Aficionado "Cigar of the Year," propelling Alec Bradley's trajectory into cigar culture much quicker than I anticipated."

PRENSADO

Prensado Lost Art

2018 Cigar Journal Trophy Award – Best Brand Honduras

"Nowadays, it seems production trumps artistry. In premium cigars, though, artisans still produce everything by hand, a process that hasn't changed in hundreds of years. I get nostalgic about the days when a large majority of products were made with care, by hand. Prensado Lost Art pays homage to those times. Every Prensado Lost Art is traditionally rolled "entubado" – with each filler leaf rolled for perfect air flow. The cigars are semi-pressed and finished with a traditional triple cap."

When I tried a special estate grown premium tobacco from Trojes, Honduras, it spoke to me,

before. The taste was incredible, and the blending process began. Tempus is Latin for time – and
it took time to learn, grow, blend and age. Tempus Centuria would eventually rate a '94' in Cigar

CALDWELL

cigar co.

Caldwell Cigar Company was created in 2014 with a very simple agenda: to create special cigars using well aged rare tobaccos and to enjoy the hell out of what they do. They are a business built on friendship and fun whose strategy has always been: Creation, Innovation and Ambition.

Caldwell products are built using very well aged and rare tobaccos. They use such aged tobacco to provide year-over-year consistency in flavour and experience. Tobacco is a crop just like everything else; it has its seasons. The best way to control consistency is to age the tobacco for a very long time. Caldwell have always leaned towards tobaccos that were harder to procure, or more limited in nature, so that they can deliver a flavour that isn't quite what you are used to.

ANASTASIA

Robert Caldwell's affinity for cigars began after visiting Ernesto Perez- Carrillo's factory in Little Havana when he was just 12 years old. Little did he know that 20 years later he would release such a special cigar with Ernesto. Anastasia is Robert Caldwell's pride and joy. Anastasia closes the circle of his journey through the industry back to the spark of initial interest that led to a life dedicated to premium cigar manufacturing.

Officially the cigar is simply called Anastasia but it is actually the fourth cigar to be released under this name, previous Anastasia releases had either blue or green bands but this release is the Anastasia Yellow Band. These medium to full bodied cigars have creamy notes of caramel, malt and spice with hints of leather and cedar.

The Quesada family has been a part of the tobacco industry for over a century. When they first arrived in Cuba from Spain they were bakers. It was in the late 1800's that they began their tobacco business when a debt to the family was paid with tobacco. In 1929, searching for new and different tobaccos, the Quesada family arrived in the Dominican Republic, but the company remained based in Havana until the 1960's.

Manuel Quesada has been making cigars since 1974. His original cigars were mild bodied, most of them a blend of Dominican filler and binder tobaccos cloaked with light Connecticut-seed wrappers. His latest endeavours are bolder, more vibrant smokes. The Casa Magna Colorado is his greatest innovation. He joined forces with Nicaragua's largest grower of cigar tobacco, Nestor Plasencia, and created this blend in Plasencia's Segovia Cigar factory in Esteli, Nicaragua.

Alberto and Alejandro Turrent, owners of Nueva Maticapan de Tabacos S.A de C.V, are the first family of Mexico's cigar industry dating back to 1880. The father-son team not only make some of Mexico's best cigars but are also the largest grower of cigar tobacco in the country. The San Andres Maduro leaf they grow outside of Veracruz is world renowned for its quality, and a variety of their tobaccos are important components in many of America's most popular premium cigar brands.

To keep the consistency of their flagship Casa Turrent line, Alejandro decided a large factory was not the best place to make the more complex Casa series. Instead Alejandro took his great grandfather's house and renovated it to make a boutique factory with just 15 people to produce the Casa Turrent Series.

In the early 21st Century, Dunhill Tobacco of London launched a range of Charatan Cigars, blended exclusively for the UK Cigar Smoker with a unique blend of Nicaraguan and Indonesian tobaccos. They were an instant success and in a short space of time Charatan became the No1 selling Nicaraguan hand made cigar brand in the UK, where it remains today. Today under the ownership of Tor Imports Ltd, Charatan is produced by Joya de Nicaragua in Esteli, Nicaragua, the country's oldest, most prestigious and original factory.

In 2021 we gave Charatan a facelift, giving the band a more modern, fresh and dynamic look. We have kept the heritage of 1963 and the symbolic Unicorn that appears on every band, but added the Azure Blue of Nicaragua to celebrate the country of origin, and some shiny grey to represent the granite formations found across Dartmoor in South West England, called Tors – where we proudly took our company name from.

This year Charatan will achieve its 160th Anniversary since Fredrick Charatan opened a tobacco shop in Mansell Street, London in 1863, making it one of the oldest New World Cigars in the world.

Watch this space for a very special commemorative Charatan 160th Anniversary Limited Edition Cigar and join us at our Commemorative Cigar events as the year progresses.

Colina

To commemorate our first anniversary of being brand owner of Charatan we celebrated by producing this special edition cigar! The Colina has a very exclusive blend using four years aged tobacco from the Joya De Nicaragua tobacco bank with a unique vitola. The cigar is double banded – our new Charatan band is completed by the second band in Blue, White and Gold to represent our love of Nicaragua. Colina is a name we have chosen very carefully, as it is the Spanish translation from Tor ...

DREW ESTATE

THE REBIRTH OF CIGARS | ESTELI, NICARAGUA

What humbly started as a one man retail kiosk in New York has grown to become one of the greatest success stories in any industry. "The Rebirth of Cigars" is more than a corporate slogan, it is the Drew mantra. It reflects how they approach everything they do within the cigar industry from their production techniques, branding, creative direction and even how they designed their factory. Drew always chart their own course and do things their way and never look back. There is only one direction at Drew Estate and that is forward. The real art takes place on the factory floor at their Gran Fabrica in Esteli, Nicaragua, where over 135,000 handmade cigars are rolled daily following the classic, artisan Cuban handmade techniques of crafting cigars. Drew are ceaselessly experimenting with methodology and even the perception of what a cigar is supposed to be. It is this willingness to experiment and open minded approach that has enabled Drew to not only produce sought after brands, but create entirely new segments within the premium cigar market.

Liga Privada No. 9

Translated to English, "Liga Privada" means "private blend." It is the perfect name, as this cigar was originally crafted not for resale, but for the personal humidors of Drew Estate. Dozens of intricate blends were created, but No. 9 was flawless in both flavour and character. Seven different tobaccos from seven distinct vegas are included. The wrapper is hand fermented for 18+ months and no sweat is allowed. Only four pairs within the Drew Estate factory are certified to produce these cigars and each pair is allowed to craft only 250 cigars per day. The cigars are then aged for a full year before being offered for sale.

Wrapper: Connecticut Broadleaf #1 Darks

Binder: Plantation Grown Brazilian Mata Fina

Filler: Select Honduran & Nicaraguan Cuban Seed

Strength: Full

Rich, complex and full bodied without being harsh, this amazing vitola is best described in one word: satisfying. Lush, earthy and espresso like with an incredibly dense body.

Liga Privada Unico Serie

In their ongoing creation of the Liga Privada line, hundreds of different, distinct blends and vitolas are crafted by Drew Estate in their endless search for the perfect smoke. Most samples are dismissed with only a rare, select few being deemed worthy, but regrettably due to tobacco limitations, costs, and construction limitations, most of these blends cannot be made into their own stand-alone line.

However, they are so perfect in flavour and aroma that Drew Estate continue to selfishly make them for themselves to smoke. This is not their desire; they want the Liga Privada connoisseur to enjoy the very same cigars they smoke regardless of any reason. With this in mind, they have created the Liga Privada Unico Serie – a home for these unique ones. All of the cigars within this series are not only different in size and blend, but they are extra special, extremely limited and exceptionally delicious.

Herrera Estelí Norteño

This full bodied Maduro expression was the first blend released from the Drew Estate factory after Willy Herrera was named Master Blender in 2014. In Nicaragua people in the North are called Norteños. When Willy Herrera joined Drew Estate he was a Northener in Esteli, a Norteño in his own way. This outside influence is what makes Herrera Estelí special.

Wrapper: Mexican San Andres

Binder: Honduras

Filler: Esteli & Jalapa

The Norteño showcases extensively aged tobaccos from the Esteli and Jalapa growing regions of Nicaragua, coupled with a spicy Honduran binder and a rich bold Mexican San Andres Maduro wrapper. Undercrown Maduro

In early 2009 Drew Estate asked their torcedores to smoke less Liga Privada cigars because they were leaving too few to be exported. This request was met with the disappointment you would expect but rather than being disgruntled they responded by blending their own signature liga. Incorporating many of the same rare tobaccos, but of different vintages and primings, the cigar they created was no mere replacement as from this Undercrown was born! It is an exceptional smoking experience of uncompromising quality and flavour that deserves to be smoked by all.

Christian Eiroa initially made his name by creating Camacho into one of the most well known and renowned cigar brands and in 2008 sold it to Oettinger Davidoff.

Probably the biggest mark he has made on the world of cigars is his predilection for Corojo tobacco. Christian has led the tobacco variety into a new heyday. And with his latest brands like Eiroa, CLE and Asylum he is – conservatively formulated – extremely successful in his business.

“Every cigar we produce is made with precision, care and excellence. Only the finest tobacco is cured to present these selections to you and we take the utmost pride in every aspect of creating each masterpiece from seed to smoke.”

– Christian Eiroa

25th Anniversary

Anniversaries of any sort tend to be a big deal in the cigar world, so when Christian Eiroa announced a brand new blend in 2020 to mark a specific milestone in his life, it was not exactly a surprise. However while the cigar is named the CLE 25th Anniversary, it was not released to commemorate the CLE brand's 25th anniversary; instead it was created to celebrate the 25 years Christian Eiroa has spent in the cigar industry. The range includes the company's signature 11 1/8 vitola – a 6 x 48 Perfecto that was once only available to members of the Tobacconist's Association of America but is now available to everyone.

La Aurora was founded on October 3rd, 1903 by Eduardo Leon Jimenes making them the very first and oldest premium cigar maker in the Dominican Republic. The son and grandson of tobacco growers, Eduardo decided to go a step further with the creation of a cigar brand that he intended to have a global dimension. Eduardo was 18 years old when he inherited some 'tareas' of land and with just six employees, great enthusiasm and much effort, began to build his dream. Today La Aurora has a presence on five continents and more than a thousand employees.

From the premium ADN Dominicana which pays tribute to the country's oldest tobacco production process to the Principe Long Filler Claro and Maduro which are top quality hand made cigars at a great price, La Aurora have something in their extensive range for everyone.

La Flor Dominicana

Andalusian Bull

The La Flor Dominicana Andalusian Bull is a truly new concept within the La Flor Dominicana's portfolio of fine cigars. The size is based on an old cigar mould that Litto Gomez found in Belgium. Naming it after Andalusia was a nod to Spain, the country where Litto Gomez was born and the silhouette of a matador on the band represents the celebrated history of the sport of bullfighting in Andalusia. The La Flor Dominicana Andalusian Bull was awarded 2016 Cigar of the Year by *Cigar Aficionado* and this marks the first time that La Flor Dominicana have received this accolade.

Wrapper: Ecuadorian Corojo

Binder: Dominican Republic

Filler: Dominican Republic

Strength: Full

Litto Gomez and his son Tony collaborated on the cigar and spent a fair amount of time fine-tuning the blend. The result is a cigar that is as intriguing in flavour as it is in appearance. First impressions are bold and savoury with strong notes of hickory and leather but it continues to take on a complex spiciness of saffron and cumin as well as a slight tangy note that brings the strength and spice together – and it only gets better with every puff!

La Volcada

The overturned. That is what La 'Volcada' directly translates to, although that's not exactly what this cigar is about. The term 'La Volcada' comes from a step in the tango dance that originated in Uruguay where Litto Gomez grew up and this cigar celebrates his Uruguayan heritage. This is the third instalment in an unofficial series of small batch cigars released by La Flor Dominicana; the first being La Nox and the second the Andalusian Bull. An oily San Andres wrapper covers an Ecuadorian Corojo binder and filler from the Dominican Republic.

Oro Chisel

The words 'refined power' shine through this cigar like the gold tubes that encase them. A true powerhouse backed with extraordinary flavour. Maya Selva

CIGARS

SINCE 1995

Since 1995 when Flor De Selva was launched in France, the Maya Selva Cigars collection continues to expand to the amazement and delight of aficionados. Like a fine wine, cigars bear the stamp of their origins, the character of their land.

Flor De Selva reflects the full character of the Jamastran valley highlands, shielded by the mountains of El Paraiso. From the heart of its fertile red soil – a mixture of sand and clay – the tobacco draws its woody flavour and rich, deep aromas.

The success of these cigars lies in the unique blending process, the blend is adapted to each cigar size allowing cigar lovers to discover a different Honduran experience with each vitola. These cigars are true Honduran puros with every element from the box to the band being manufactured in Honduras.

It all began from a very humble beginning when Jose Pepin Garcia and his family established a very small cigar factory in Little Havana in 2003. Jose Pepin Garcia could not have imagined at that moment that his love and passion for cigars would help him to build one of the most recognized companies in the cigar industry. His companies have become synonymous with highly rated and well-distinguished brands.

The Cigar Aficionado Best Cigar of the Year for 2012 was given to Flor de Las Antillas and repeated in 2015 with Le Bijou 1922 Torpedo Box Pressed. This makes My Father only one of three cigar makers to receive this accolade on more than one occasion since the awards commenced in 2004.

The Garcia Family continues to follow the tradition they lived and learned in Cuba and proudly own two factories, the headquarters in Doral, which is a boutique factory with a team of twelve expert cigar rollers trained by Don Pepin himself. The other is the Garcia Family Industrial Park in Estelí, Nicaragua with more than three hundred cigar rollers. Both factories are responsible for the twelve company owned brands that exist in the marketplace today.

Special Releases

On occasion Padrón craft special releases to commemorate significant family events. In 2004 the 40th Anniversary Natural marked the first time Padrón was awarded Cigar of the Year by *Cigar Aficionado*.

Wrapper: Nicaragua

Binder: Nicaragua

Filler: Nicaragua

The 40th Anniversary may be the best cigar the Padróns have ever made. Each leaf in the cigar is a minimum of five years old and the wrapper feels like fine silk. The box-pressed torpedo is superbly crafted with an intensely complex flavour. Slightly stronger than a Padrón Anniversary, it has heavy chocolate notes framed by earthy spices, with a luxuriant, long finish.

The 80 Years is an amazing cigar, teeming with complexity and depth that can only be achieved through inventories of well-aged tobacco. The cigar has the signature Padrón flavour: cocoa, coffee, nuts and toast; it also has orange peel, leather and some spice on the finish. It is made with some of the company's oldest leaves by only one buncher and one roller, who create but 300 cigars per day.

ROOM101

Room 101 Cigars were founded in 2009 with the intent to honour the craft and rich history of cigar making whilst applying a progressive approach to both blending and product design. From its inception the Room 101 brand quickly garnered the respect and intrigue of cigar traditionalists as well as a newer breed of enthusiast in the early stages of what was to become an era of 'boutique' brands.

2017 saw the reincarnation of Room 101 Cigars. With the launch of exciting collaborative projects with both the Caldwell Cigar Company and AJ Fernandez, Room 101 again demonstrated the brand's ability to transcend the norm and skyline as a house of innovation in terms of creativity and quality. These first products paved the way towards the debut of new collections under the Room 101 name to solidify the brand's position in premium tobacco.

Rolled at Tabacalera William Ventura in the Dominican Republic, Matt Booth explains that Farce is the first part in a new cigar series for Room 101: *"Farce is the first instalment in a multi-blend sub-brand series for Room 101 Cigars, I have invested tremendously in these products, intending that they properly reflect the evolution of the Room 101 brand in the cigar class. This is not a one-shot deal – it is the beginning of a new era for Room 101 in the cigar business."*

From Oliva Cigar Company, Nub is a concept cigar, launched in the UK in 2009. Nub cigars are considered one of the most innovative cigars around. Many makers have tried to copy, but they cannot match the superb quality and consistency of the Nub.

The cigars are packed with blends of tobacco to capture the perfect essence of a cigar. Nub cigars are the results of the search for the 'sweet spot'. By shortening the overall length of the cigar, while significantly expanding its ring gauge; these cigars have an immediate and sustained 'sweet spot'. They also deliver a more flavourful and complex smoking experience.

Cain

Oliva Cigar Company developed the Cain brand in 2009 to capture fans of more full bodied cigars. The original Cain release was blended exclusively with Nicaraguan Ligerero tobaccos, known for furnishing a particularly potent profile. To offset the potential harshness of an all ligerero blend (branded as Straight Ligerero) the tobaccos receive triple fermentation which lasts anywhere from several weeks to several months.

Sua Altezza was born over lunch in Notting Hill, London.

While smoking a cigar the founders had the thought to create a luxury cigar as no other brand does. Not only did they decide to wrap their cigar with gold, but they knew they needed more luxury touches to introduce something absolutely unique to the cigar market. From this lunch, Sua Altezza cigars were born.

The name Sua Altezza – which means Your Highness in Italian – has a close relationship with the city of Florence, from where the gold leaves that adorn and wrap the cigar originate. Indeed, historically, Florence has always been considered as being the world's capital for gold and jewellery.

During the first half of the 15th century The Medici Family, were gaining prominence across Europe, attaching a great deal of importance to gold and 'Lorenzo the Magnificent' himself was a collector of gold jewellery who hugely influenced and created plentiful work for goldsmiths in the 1400s.

Later in their history, Catherine of Medici (born in Florence), was suffering from headaches so Jean Nicot sent her tobacco plants. She was so enthusiastically impressed that she proclaimed that tobacco was henceforth to be named Herba Regina 'the Queen's herb'.

This historical anecdote, added up to the origins of our gold and the prestige of our products, make them without any doubt royal and henceforth the name 'Sua Altezza' came naturally to us as if it was the sign of the destiny.

Sua Altezza

Sua Altezza cigars are a unique blend, created with input from some of the worlds best cigar sommeliers. These exceptional and unique cigars are handmade in Costa Rica, then wrapped in 24 carat gold leaves. Each cigar is finished with a band of leather that is handmade in Lyon, France and each cigar is presented in a stunning piano lacquer mirrored presentation box.
